

I am a recent subscriber to XM satellite radio and it has been a welcome alternative to the mediocre quality and variety of radio stations offered in Miami. I commute to work two hours a day and am relieved to have this new service. It's about the freedom of a choice. I chose to pay for the service on a monthly basis and enjoy the quality and variety of the music and talk shows that XM offers. As such, I respectfully urge the FCC to reject the NAB's petition 04-160. Thank you.
